

This map is not a certified survey and has not been reviewed by a local government agency for compliance with any applicable land development regulations and has not been reviewed for compliance with recording requirements for plats.

As we all know, sometimes neighbors have second thoughts concerning logging trucks and access. If this occurs, the Akland's will construct a NEW path, entirely on their property prior to closing. The buyer will have the option of approving the new path prior to closing.

Logging access will be a single vehicle wide path from Bethlehem Road along an existing path and then through a cultivated field. A portion of the path will require upgrading.

Alternative Logging Access
